MORE TO KNOW BEFORE YOU GO

Hydration, hydration, hydration! Please help us keep your family healthy! Participants should drink plenty of fluids PRIOR to the start of camp as well as during the camp week. Dehydration can sneak up on you so we want to make sure that we beat the heat and stay healthy by staying well hydrated this summer.

Please be sure to put a name on all articles that come to camp! Any belongings that are left at camp after 3 weeks are donated to a charity in Boerne.

Check those emails! Be sure and check your emails regularly for any camp announcements.
