CHECKLIST

LEGEND: This checklist follows a six-category designation of the abundance of each species in its proper habitat in the right season.

Sp = Spring; S = Summer; F = Fall; W = Winter

KEY TO THIS CHECKLIST:

A = Abundant: Normally present and easy to find in proper habitat, often in large numbers.

C = Common: Normally present and should be found in proper habitat.

U = Uncommon: Normally present, but can be missed, in proper habitat in small numbers.

O = Occasional: Not expected, annual although occurring only a few times per year.

R = Rare: Occurs at irregular intervals, but not on an annual basis.

X = Accidental: Average of one or two records every ten years.

*** = Nesting species**

^ = Edwards Plateau priority species

KEY TO SIGHTING LOCATIONS: For each species observed, please enter the number observed in each habitat.

P = Prairie/Field W = Woodland/Savannah R = Riparian M = Marsh L = Lake O = Flyover
